GTA 3 cheat codes

Free printable cheat sheet · **v1 · 19 Nov 2026** · cross-checked, only codes at least two sources agree on

GTA 3 started the cheat-code tradition for 3D Grand Theft Auto. This is the cross-checked PC, PlayStation 2 and Xbox list. **PC:** type the code during gameplay. **PlayStation 2 / Xbox:** enter the buttons during gameplay (× cross · □ square · △ triangle · ○ circle · arrows = D-pad; Xbox uses A B X Y, LB RB LT RT). Save first: some cheats cannot be undone.

Armour is TORTOISE on the later PC patch and TURTOISE on the original 1.0 PC release. Cheat names follow the original GTA3.com list where it covers a code.

Xbox sequences are shown only where at least two Xbox lists print exactly the same buttons. Polygon says a few cheats (invisible cars, speed up time, more gore) do not work in the Definitive Edition.

Every code was checked against at least two sources. Rockstar publishes no official list for this game.
