GTA San Andreas cheat codes

Free printable cheat sheet · **v1 · 19 Nov 2026** · cross-checked, only codes at least two sources agree on

GTA San Andreas has more cheats than any other GTA of its era. This is the cross-checked PC, PlayStation 2 and Xbox list. Where our sources disagreed on the buttons the box shows a dash instead of guessing. **PC:** type the code during gameplay. **PlayStation 2 / Xbox:** enter the buttons during gameplay (× cross · □ square · △ triangle · ○ circle · arrows = D-pad; Xbox uses A B X Y, LB RB LT RT). Save first: some cheats cannot be undone.

A few PlayStation 2 button sequences are left as dashes (for example raise wanted level by two stars, rainy weather, rural theme, sports car traffic) because our sources disagreed. PC codes are shown only when at least two sources list them. Some cheats have a second PC code that works the same way, shown under the first.

Xbox sequences are shown only where at least two Xbox lists print exactly the same buttons. A few cheats no longer work in the Definitive Edition on consoles (Polygon, GTAside), so test on a spare save. The Xbox jetpack uses the longer 16-press sequence that Polygon, GamesRadar and GTAside all print; the PlayStation 2 column shows the shorter original PS2 sequence.

Every code was checked against at least two sources. Rockstar publishes no official list for this game.

Sources: Grand Theft Wiki; GTA Wiki; GTA Cheat (gta-cheat.com), all checked 19 Nov 2026. Xbox: Polygon; GamesRadar; Shacknews; GTABase; GTAside. Full table and updates: sixanswered.co.uk/cheats/gta-san-andreas/
